CYBERSPACE—As AVN reported earlier this week, fans of former adult starlet Belle Knox will get little satisfaction watching the Lifetime movie *From Straight A's to XXX*, which purports to tell the story of Miriam Weeks and her temporary transformation into adult phenom Belle Knox.

Those who would like to see more—much more—of the Duke University porn star will find Knox's sexier side displayed in the adult movie *Belle Knox Schooled: Durham Devil*, which is set to air on adult-on-demand cable television platforms.

Offered by Align Broadcasting, *Belle Knox Schooled* will be available nationwide starting February 20.

The re-release of this adult feature coincides with the premiere of the Lifetime network movie, which tells the story of Weeks, a Duke University student who chose a career in adult entertainment to pay for her college tuition.

"Align's ability to quickly respond to audience demands continues to make adult programming on cable TV a quality experience," said Brett Lobdell, VP of programming.

Formed in 2013 by a group of industry veterans, Align engages transactional TV objectives with content tailored to consumer demands. Utilizing the resources of parent company DataTech Global, Align provides category insight and in-demand transactional TV content. For more information visit AlignBroadcasting.com.
